Materion Achieves "Perfect Quality" Award

ON Semiconductor Honors Advanced Materials Group

MAYFIELD HEIGHTS, Ohio--(BUSINESS WIRE)-- The Advanced Materials group of Materion Corporation (NYSE:MTRN) has been honored with the "2014 Annual Perfect Quality Award" by ISMF, the Malaysian manufacturing plant of ON Semiconductor (NASDAQ: ONNN). The award recognizes Materion for achieving a "perfect" rating for quality control and for the highest performance among eight materials suppliers.

Materion was cited for supplying ON Semiconductor with "perfect quality product" for 33 shipments in 2014 that included a variety of thin film materials used in wafer fabrication. This achievement represents the diligent work of the Materion Advanced Materials group and its operation team. ON Semiconductor is a broad-based global supplier of semiconductor components that serves a variety of markets including automotive, computing, consumer, LED lighting, military/aerospace, industrial and communications.

"We are honored to be recognized with this 'Perfect Quality Award' and look forward to furthering our working relationship with ON Semiconductor that began in 2013," commented Materion Advanced Materials President, Donald Klimkowicz. "Our people have always focused on delivering quality products to our customers. We will continue to deliver the superior support that ON Semiconductor has come to expect from us."

The award trophy will be presented to Materion at a ceremony at ISMF ON Semiconductor's facility in Malaysia.

Advanced Materials is a business group of Materion Corporation. Materion Corporation is headquartered in Mayfield Heights, Ohio. The company, through its wholly owned subsidiaries, supplies highly engineered advanced enabling materials to global markets. Products include precious and non-precious metals, inorganic chemicals and powders, specialty coatings, specialty engineered beryllium alloys, beryllium and beryllium composites, and engineered clad and plated metal systems.
