

# DFIN'S Venue® Named Americas Data Room of the Year by Global M&A Network

December 05, 2018

## *Recognition in Americas follows DFIN's global win for three consecutive years*

CHICAGO--(BUSINESS WIRE)-- [Donnelley Financial Solutions](#) (NYSE: DFIN), a leading global risk and compliance company, announced that it was named M&A Virtual Data Room Firm of the Year for its [Venue® Data Room](#) solution at the Global M&A Network's 10<sup>th</sup> Annual Americas M&A Atlas Awards celebration, held on Nov. 29 in New York City.

This marks the first time DFIN has earned this prestigious Americas award, though the firm has won the Global award for three consecutive years. The independently governed Americas awards honors best value-creating deals, outstanding firms, top dealmakers and leaders from the North and South Americas corporate, alternative investor and transactional communities for successfully closing deals.

"As a fintech company at the forefront of providing technology solutions for our clients, we are thrilled to be recognized for our Venue Data Room as a platform to streamline speed and transparency during the diligence process," said Craig Clay, president, Global Capital Markets at DFIN. "DFIN's multi-pronged approach at every stage of the deal process – providing data security, investor reporting, ongoing compliance advice, a dedicated support team and more – forms a tailored solution for each client's unique business goals. We pride ourselves in taking businesses to the next level of growth."

DFIN's Venue Data Room is a highly secure data room platform that allows global companies to manage sensitive deal-related data, make complex financial transactions and confidently share critical information in real time.

"We are honored to have earned this award from the Global M&A Network, which sets the standard for digital-first platforms," said Floyd Strimling, chief product officer at DFIN. "Venue's deal solutions suite is powered by artificial intelligence to reduce the time and cost of due diligence and contract review, and rigorous security features, with the strongest levels of encryption at every stage."
