

Donnelley Financial Solutions and LedgerDomain Partner to Deliver Blockchain-Powered Solutions for Risk and Compliance

June 18, 2018

CHICAGO--(BUSINESS WIRE)-- [Donnelley Financial Solutions](#) (NYSE: DFIN), a leading provider of risk and compliance solutions, is partnering with blockchain startup LedgerDomain to bring the power and security of blockchain to clients globally.

Donnelley Financial and LedgerDomain are building secure, cloud-based applications for companies to collaborate on complex processes with critical regulatory and compliance dynamics. The enterprise blockchain solution is a multi-user database with cell-level encryption that automates workstreams performed by investment market teams.

“Regulatory disclosures and shareholder communications are manually intensive, complex and involve multiple internal and external parties,” said Eric Johnson, president of Global Investment Markets at Donnelley Financial Solutions. “Blockchain-based enterprise solutions address our clients’ pain points by attacking cost, complexity and operational risks to improve the overall client experience. As the trusted partner for 90 percent of the top 50 fund complexes, Donnelley Financial will be able to offer clients a next generation technology solution to streamline their most complex transactions.”

“We’re excited to combine LedgerDomain’s expertise in blockchain technology with Donnelley Financial’s digital regulatory and shareholder solutions,” said Ben Taylor, CEO of LedgerDomain. “We knew we needed a partner that could deliver actionable solutions. When we sat down with Eric and his team, we realized immediately that we shared a vision on technology and trust. We’re looking forward to working together to deliver the security and power of blockchain to Donnelley Financial’s clients.”

Donnelley Financial recently hosted *Blockchain: A Realistic Approach to Implementation and Results* webinar and developed a [checklist](#) to determine an organization’s readiness for a blockchain pilot.
