

Momenta Pharmaceuticals to Present at Upcoming Healthcare Conferences

CAMBRIDGE, Mass., Oct 26, 2007 (PrimeNewswire via COMTEX News Network) -- Momenta Pharmaceuticals, Inc. (Nasdaq:MNTA), a biotechnology company specializing in the characterization and engineering of complex drugs, today announced it will be making presentations at two upcoming healthcare conferences.

Richard P. Shea, Chief Financial Officer, will deliver a corporate presentation at the CIBC World Markets 18th Annual Healthcare Conference on Monday, November 5, 2007 at 4:15 p.m. EST. The conference will be held at the Waldorf-Astoria Hotel in New York City. Craig A. Wheeler, President and Chief Executive Officer, will deliver a corporate presentation at the Acumen BioFin Rodman & Renshaw 9th Annual Healthcare Conference on Tuesday, November 6, 2007 at 9:30 a.m. EST. The conference will be held at the New York Palace Hotel in New York City.

A live audio webcast of each presentation will be available on the "Investors" section of the Company's website located at www.momentapharma.com. A replay of the presentation will be posted on the Momenta website approximately thirty minutes after the event and will be available through December 6, 2007.

About Momenta

Momenta is a biotechnology company specializing in the detailed structural analysis of complex mixture drugs. Momenta is applying its technology to the development of generic versions of complex drug products as well as to the discovery and development of novel drugs. The Company's most advanced product candidate, M-Enoxaparin, is designed to be a technology-enabled generic version of Lovenox(r). Momenta's first novel drug candidate is M118, a rationally engineered anticoagulant specifically designed for acute coronary syndromes. Within the Company's discovery program, it is seeking to discover and develop novel therapeutics by applying its technology to better understand sugars' functions in biological processes, with an initial focus in oncology. Momenta was founded in 2001 based on technology initially developed at Massachusetts Institute of Technology and is headquartered in Cambridge, MA.
