About Momenta:

Momenta Pharmaceuticals is a biotechnology company specializing in the detailed structural analysis of complex mixture drugs. Momenta is applying its technology to the development of generic versions of complex drug products, as well as to the discovery and development of novel drugs. The Company's most advanced product candidate, M-Enoxaparin, is designed to be a technology-enabled generic version of Lovenox®. Momenta's first novel drug candidate is M118, a rationally engineered anticoagulant specifically designed for acute coronary syndromes. Through its discovery program, the Company is seeking to discover and develop novel therapeutics, with an initial focus in oncology, by applying its technology to better understand sugars' functions in biological processes. Momenta was founded in 2001 based on technology initially developed at Massachusetts Institute of Technology and is headquartered in Cambridge, MA.
