MIDLAND, Texas--(BUSINESS WIRE <sup>(1)</sup>)--Ring Energy, Inc. (NYSE American: REI) ("Company") ("Ring") announced today that it has entered into a definitive agreement with Wishbone Energy Partners, LLC and its affiliates ("Wishbone") to acquire its North Central Basin Platform assets located primarily in Southwest Yoakum County, Texas and East Lea County, New Mexico. The total purchase price for the acquisition is \$300 million, comprised of \$270 million of cash and \$30 million of common stock of the Company. SunTrust Bank has provided a financing commitment letter for an increased \$1 billion senior credit facility with a borrowing base of \$425 million. SunTrust Robinson Humphrey will act as lead arranger and book manager for the financing. The transaction is expected to close early in the second quarter, 2019, with an effective date of November 1, 2018.

The assets consist of 49,754 gross (37,206 net) acres of mostly contiguous leasehold. Ring will be the operator and have a 77% working interest and a 58% net revenue interest. The acreage is adjacent to the prolific Wasson and Brahaney fields. There is a base of 127 gross wells currently producing an average daily net production of 6,000 Boe. The assets are approximately 96% operated by current production volume. In addition, current infrastructure includes 1,385 acres of owned surface rights, 21 salt water disposal wells, 15 source water wells, five frac ponds and three caliche pits for road material and new locations.

### **Impactful, Immediately Accretive Acquisition -**

- Ring's Proved NAV/share of \$7.46<sup>(1)</sup> increases to pro forma Proved NAV/share of \$11.33<sup>(2)</sup>, a 52% increase.
- Doubles Production - Pro forma of 12,100 Boe/d, a 98% increase.
- Doubles Proved Reserves<sup>(3)</sup> - Pro forma of 70.9 MMBoe, a 94% increase.
- Doubles Future EBITDA.
- Increases prospective horizontal San Andres locations by 363.
- Low projected leverage of < 2.0x by YE2019 and < 1.5x by YE2020.
- No capital markets required to fund acquisition due to increased credit facility.
- Reassures the ability to reach future cash flow neutral/positive in second half of 2019.

(1) Proved NAV/share calculated as YE2018 Proved PV-10 based on SEC pricing (\$62.04/Bbl of oil and \$3.10/Mcf of gas) less total debt divided by current shares outstanding.

(2) Pro forma Proved NAV/share calculated as pro forma YE2018 Proved PV-10 based on SEC pricing (\$62.04/Bbl of oil and \$3.10/Mcf of gas) less pro forma total debt divided by pro forma shares outstanding.

(3) Proved Reserves include PDP, PDNP and PUD.

Mr. Kelly Hoffman, CEO of Ring stated, "We are thrilled to announce the acquisition of these properties from Wishbone and appreciate the effort of all parties involved. The future is very bright based on the great results from its existing wells combined with the exceptional results we are experiencing with our on-going drilling and development program. This acquisition doubles our daily production, adds another 37,000 prime acres to our horizontal footprint and nearly doubles our proved reserves. We now have over twenty years of San Andres horizontal drilling inventory using a 2-rig development program. We believe this acquisition is a major step toward achieving our stated goals to continue to generate strong

annualized production growth and to become cash flow neutral / positive by the second half of 2019. Our dedicated team has worked tirelessly to position our Company for the future, and with this acquisition we have built a tremendous platform that will lead to superior results for Ring Energy and its shareholders.”
