# Oshkosh Defense Features Its Winning JLTV Solution at AUSA

10/12/2015

Oshkosh JLTV Offers the Best Protection and Off-Road Mobility for the Warfighter

OSHKOSH, Wis.--(BUSINESS WIRE)-- **Oshkosh Defense**, LLC, an Oshkosh Corporation (NYSE: OSK) company, is featuring the winning Joint Light Tactical Vehicle (**JLTV**) at AUSA in Washington, D.C. October 12-14, 2015. Oshkosh's JLTV is the next-generation light military vehicle delivering an exceptional combination of troop protection, transportability, off-road mobility, speed, power and life-cycle value.

"The Oshkosh JLTV is hands down the most capable vehicle ever built," said John Urias.

(Photo: Business Wire)

"The JLTV program fills a critical capability gap for the U.S. Army and Marine Corps by replacing a

large portion of the legacy HMMWV fleet with a light tactical vehicle with far superior protection and off-road mobility," said U.S. Army Major General (Retired) John M. Urias, executive vice president of Oshkosh Corporation and president of Oshkosh Defense. "Our Warfighters, who are courageously serving our country, deserve the most capable vehicle. We are honored that the U.S. Army and Marine Corps selected the Oshkosh JLTV as the best vehicle to serve their missions."

The Oshkosh JLTV combines the latest in automotive technologies, the Oshkosh Core1080™ crew protection system, and the Oshkosh TAK-4i™ intelligent independent suspension system to provide the world's fastest, most protected light military vehicle.

"The Oshkosh JLTV will revolutionize how our Soldiers and Marines get to the fight," said Urias. "It has been extensively tested and is proven to provide the ballistic protection of a light tank, the underbody protection of an

MRAP-class vehicle, the network capability of a mobile command center, and the off-road mobility of a Baja racer. Looking beyond today's requirements, our JLTV was designed with room for future requirements as operating environments may rapidly evolve."

## U.S. Soldiers and Marines can expect:

- A vehicle 1/3 smaller and lighter than the Oshkosh M-ATV
- Off-road speeds 70 percent faster than today's gold standard, the M-ATV
- A modular design that can be quickly and efficiently outfitted for a full range of missions
- Fully transportable by sea or air, such as C130, CH-53 and CH-47
- Network ready and VICTORY compliant
- Superior ride quality

Oshkosh has been a leading provider of tactical wheeled vehicles for the U.S. Army for nearly 75 years, including the **M-ATV, FMTV, HEMTT, PLS, and HET**. Oshkosh also developed the battle-tested, combat proven **TAK-4®** independent suspension system, which is in operation on more than 20,000 military-class vehicles.

Oshkosh Defense leadership will be available to discuss the company's vehicles, technologies and services on the second floor at AUSA in booth #6643.

## About Oshkosh Defense

Oshkosh Defense is a leading provider of tactical wheeled vehicles and life cycle sustainment services. For decades Oshkosh has been mobilizing military and security forces around the globe by offering a full portfolio of heavy, medium, light and highly protected military vehicles to support our customers' missions.
